

There are **6 cards A** and **6 cards B**, representing topics A and B.

1. Put all A cards together and fan them out.
2. Write a large capital A in the top left corner.
3. Put all B cards together and fan them out.
4. Write a large capital B in the top left corner.
5. You now have two topic sets A and B.
6. Each set (A and B) has 3 white and three green cards (white cards contain the picture stimulus and green cards, the text-based stimulus).

Each candidate chooses a card from pack A and a card from pack B. The cards must be different colours (green card from A and white from B or vice versa).
